

The Ultimate Grinder

Features

XPANDING DRUM	Motor - Industrial, fully enclosed, 1 H.P., dual voltage 3450 r.p.m (wired for 110v AC)	GRINDING PLATE
<p>Large sanding area provided by 4" wide x 12" dia. expanding drum. Simply stop the wheel to slip sanding belts on/off. Built to last.</p> <p>Low operating costs due to long sanding belt life.</p>	<p><i>Simple and proven design</i></p>  <p>Bullet proof construction</p>	<p>5/8" thick x 12" diameter sanding plate balanced for high speed operation. The large plate allows you to adjust the surface speed from 2300 to 6900 F.P.M. depending where you work the stone on the wheel.</p>
6900 F.P.M. surface speed	<p>1 ⁷/₁₆" dia. shaft with industrial grade bearings and sheaves. 2200 RPM shaft speed.</p>	2 pole switch allows you to change wiring for use on 220 V.A.C. circuit.
<i>Rapid belt changes</i>	<p>Built on heavy duty welded aluminum channel frame.</p>
